

Star Wars Escape Room

What ages is the escape room aimed at?

The escape room is designed for ages 13+. You can attend with younger children. However, please note that the escape room is not necessarily designed to be completed within the time limit by groups with younger participants and some of the puzzles will be more challenging.

What is the maximum group size?

The escape room, due to its size, can take a maximum of six people.

What is the minimum group size?

The minimum group size is two people.

Can teenagers and their friends do the escape room alone?

Teenagers 13-17 can do the escape room alone or in a group. If you are bringing a child 12 or under, they will need an adult present in the room with them. The adult counts as one of the participants.

How long is the escape room?

You will have thirty minutes to complete your escape room. Due to the fact that there are multiple bookings during the day, at thirty minutes your group will need to leave the space, whether or not you have solved all of the clues. However, when you have five minutes left, your escape room host will provide you with hints to help you finish, if you would like.

What happens if I show up late to my escape room?

You will still be admitted to the escape room. However, because there are multiple bookings a day, you will have less time to complete the escape room, as your session will still end thirty minutes after your original start time.

Do I need to know about Star Wars to complete the escape room?

You do not. All of the information that you need to solve the puzzles will be inside the escape room. That being said, if you do know about Star Wars, you may be able to complete the room faster than normal.

Do I need to dress up in a Star Wars costume for my escape room?

You do not need to, but you are absolutely welcome to.

Do I need to bring anything with me to the escape room?

You do not need to bring anything.

Will the library be running other escape rooms in the future?

We are hoping to offer more escape rooms in the future. The next one will probably be fairytale themed.
